

MOBILE HOME PERMIT/FEE SCHEDULE

Maury County, Tennessee

On January 20, 1986, The Maury County Commission adopted a building permit and codes enforcement program. A mobile home permit is required each time a mobile home is moved from one location to another, or a mobile home is "changed out" (old home replaced with a new or larger unit).

Most, but not all, land in the unincorporated areas of Maury County is zoned "A-2, Rural Residential", and allows single-family and duplex dwellings on lots of at least one (1) acre in size. Under the Maury County Zoning Resolution, mobile homes are considered the same as a site built (stick built) single-family home. Property line setbacks are as follows: Front Property Line 40'; Rear Property Line 30'; and Side Property Lines 20'.

The "A-2, Rural Residential" District allows up to two (2) dwellings on any unsubdivided lot provided that the lot is a minimum of five (5) acres and the two dwellings are no closer than 100 feet apart.

If a lot of less than five (5) acres is being divided (split off) from a larger tract of land, a "minor plat" must be prepared by a Tennessee licensed surveyor, submitted to the appropriated Planning Commission for approval, and then recorded in the Register of Deeds Office prior to a mobile home permit being issued for the new lot.

Before a mobile home permit can be issued, the applicant must first contact the Tennessee Department of Environment and Conservation at 1421 Hampshire Pike (931-380-3371), to obtain a Septic Tank Permit.

To apply for a mobile home permit, the Building and Zoning office must receive the following: Please read and check.

- _____ 1) A septic permit or recertification
- _____ 2) Certification or receipt showing proof of a valid water tap or water source
- _____ 3) Documentation verifying the sales price of the home must be presented. The permit fee is based on the price of the home (see attached fee schedule)
- _____ 4) On county roads, outside of platted subdivisions, driveway connections must be approved by the Maury County Highway Department (375-6203)
- _____ 5) Setback regulations with a plot plan of the property showing the location of the mobile home
